

19th Annual Sewer Conference

October 11-12, 2017 | Monroeville Convention Center

CALL FOR ABSTRACTS

Submit an abstract by Friday, May 12

We are seeking sessions for an educational agenda covering a broad range of topics:

- Case studies on effective I/I reduction and green infrastructure in reducing sewer overflows
- Asset data management
- Funding strategies for infrastructure projects
- Case studies on Inter-municipal cooperation
- Identifying and prioritizing locations for source reduction and green infrastructure
- Comparison of annual overflow reduction and costs for gray vs. green infrastructure
- Green infrastructure life cycle and O & M requirements
- Sustainable O&M approaches, F.O.G.
- Long-term wet weather planning
- Stormwater fees/authorities
- Removing barriers for low-impact development in stormwater ordinances
- PAG-13 and requirements for the next NPDES permit cycle
- Stormwater BMPs for sediment and nutrient impairments
- Water quality, impaired streams and TMDL development
- Successful private sewer lateral programs
- Integrated watershed planning case studies
- Cost-analysis tools and models
- Multi-municipal Act 537 planning
- Watershed management
- Public-private partnerships
- Case studies on regional approaches to solving wet weather issues
- GIS tools and techniques
- Pipes and manhole rehabilitation
- O&M best practices for infrastructure and stormwater BMPs
- MS4 Pollutant Reduction Plan implementation

CONFERENCE SPEAKING PROPOSAL GUIDELINES

Name	Speaker Title Company Name Address Phone E-mail <i>If you are submitting for more than one speaker, please provide contact information for each speaker.</i>
Title	Name of Presentation
Description of the presentation	Content shall be in 400 words or less. Emphasize the educational elements of the presentation. <i>(Sales-oriented presentations will not be considered.)</i> Presentations must provide unbiased, valuable information about a technology, technique, case study, etc. Co-presentations and case studies are encouraged. Most sessions are 30-45 minutes. Due to the session length, we request that proposals/presentations include no more than two speakers.
Learning Outcomes	List at least three goals or outcomes of the presentation. What will participants have learned by the time they leave your session?
Short Biography	2-3 sentences (about 100 words)
Previous Presentations	List the conference/seminar, date and topic of other speaking engagements.
Please Note	3RWW is unable to cover travel expenses for speakers, but we waive the conference registration fee. Individual speakers must book their own accommodations and may use our reserved room block. Additional details will be provided in the speaker acceptance letter.
